

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-119. (Canceled)

120. (New) A method of making up eyelashes comprising applying to said eyelashes a mascara comprising:

- (i) at least one solid substance that has a melting point of about 45°C or greater;
- (ii) isododecane;
- (iii) at least one structuring polymer chosen from polymers of following formula (I):

in which n is an integer which represents the number of amide units such that the number of ester groups present in said at least one structuring polymer ranges from 10% to 50% of the total number of all said ester groups and all said amide groups comprised in said at least one structuring polymer;

- R¹, which are identical or different, are each chosen from alkyl groups with at least 4 carbon atoms and alkenyl groups with at least 4 carbon atoms;

- R^2 , which are identical or different, are each chosen from C_4 to C_{42} hydrocarbon-based groups with the proviso that at least 50% of R^2 are chosen from C_{30} to C_{42} hydrocarbon-based groups;

- R^3 , which are identical or different, are each chosen from organic groups comprising atoms chosen from carbon atoms, hydrogen atoms, oxygen atoms and nitrogen atoms with the proviso that R^3 comprises at least 2 carbon atoms; and

- R^4 , which are identical or different, are each chosen from hydrogen atoms, C_1 to C_{10} alkyl groups and a direct bond to at least one group chosen from R^3 and another R^4 such that when said at least one group is chosen from another R^4 , the nitrogen atom to which both R^3 and R^4 are bonded forms part of a heterocyclic structure defined in part by R^4-N-R^3 , with the proviso that at least 50% of all R^4 are chosen from hydrogen atoms;

- (iv) water;
- (v) at least one coloring agent; and
- (vi) at least one preservative.

121. (New) The method of making up eyelashes according to claim 120, wherein said mascara further comprises at least one neutralizing agent.

122. (New) A method of making up eyelashes comprising applying to said eyelashes a mascara comprising:

(i) at least one solid substance that has a melting point of about 45°C or greater;

(ii) isododecane;

(iii) at least one structuring polymer chosen from ethylenediamine/stearyl dimer tallate copolymers;

(iv) water;

(v) at least one coloring agent; and

(vi) at least one preservative.

123. (New) The method of making up eyelashes according to claim 122, wherein said mascara further comprises at least one neutralizing agent.

124. (New) A method of making up eyelashes comprising applying to said eyelashes a mascara comprising:

(i) at least one solid substance that has a melting point of about 45°C or greater;

(ii) isododecane;

(iii) at least one structuring polymer chosen from ethylenediamine/stearyl dimer dilinoleate copolymers;

(iv) water;

(v) at least one coloring agent; and

(vi) at least one preservative.

125. (New) The method of making up eyelashes according to claim 124, wherein said mascara further comprises at least one neutralizing agent.
